

# GLOBAL MACROECONOMIC DEVELOPMENT AND FINANCIAL MARKETS

## NAVIGATING MARKET VOLATILITY WITH TECHNICAL ANALYSIS

This one-day seminar, held jointly by CMT Association and the National Institute of Bank Management (NIBM), will delve into the interconnected dynamics of macroeconomic policy, financial markets, and technical analysis. Featuring esteemed speakers: **Ms. Dimple Bhandia**, Chief General Manager, FMRD, Reserve Bank of India; **Prof. Partha Ray**, macroeconomist and Director NIBM; **Tyler Wood**, CMT, CEO, CMT Association, and **Akshay Chinchalkar**, CMT, Head of Research at Axis Securities, the event will explore recent developments in Indian financial markets and the global banking sector. Through keynote addresses, panel discussions, and TED-style talks, industry leaders will examine the impact of central banking policies on market volatility, while also showcasing how technical analysis can be employed to decode market trends and inform decision-making. Attendees will gain key insights on navigating market fluctuations, understanding macroeconomic trends, and leveraging technical analysis tools amidst an ever-evolving economic landscape.
